

Publication Correction to the Pre-Sterilization and Post-Sterilization Industry Summary Report

April 2015

- Publication error for microbial barrier data
- Discovered during generation of Regulatory Summary Reports
- **NO CHANGE IN FUNCTIONAL EQUIVALENCE**
- Conclusion? Transition Protocol material performance is even better
- Updated Industry Summary Report that incorporates the corrections can be downloaded at www.areyouready.tyvek.com

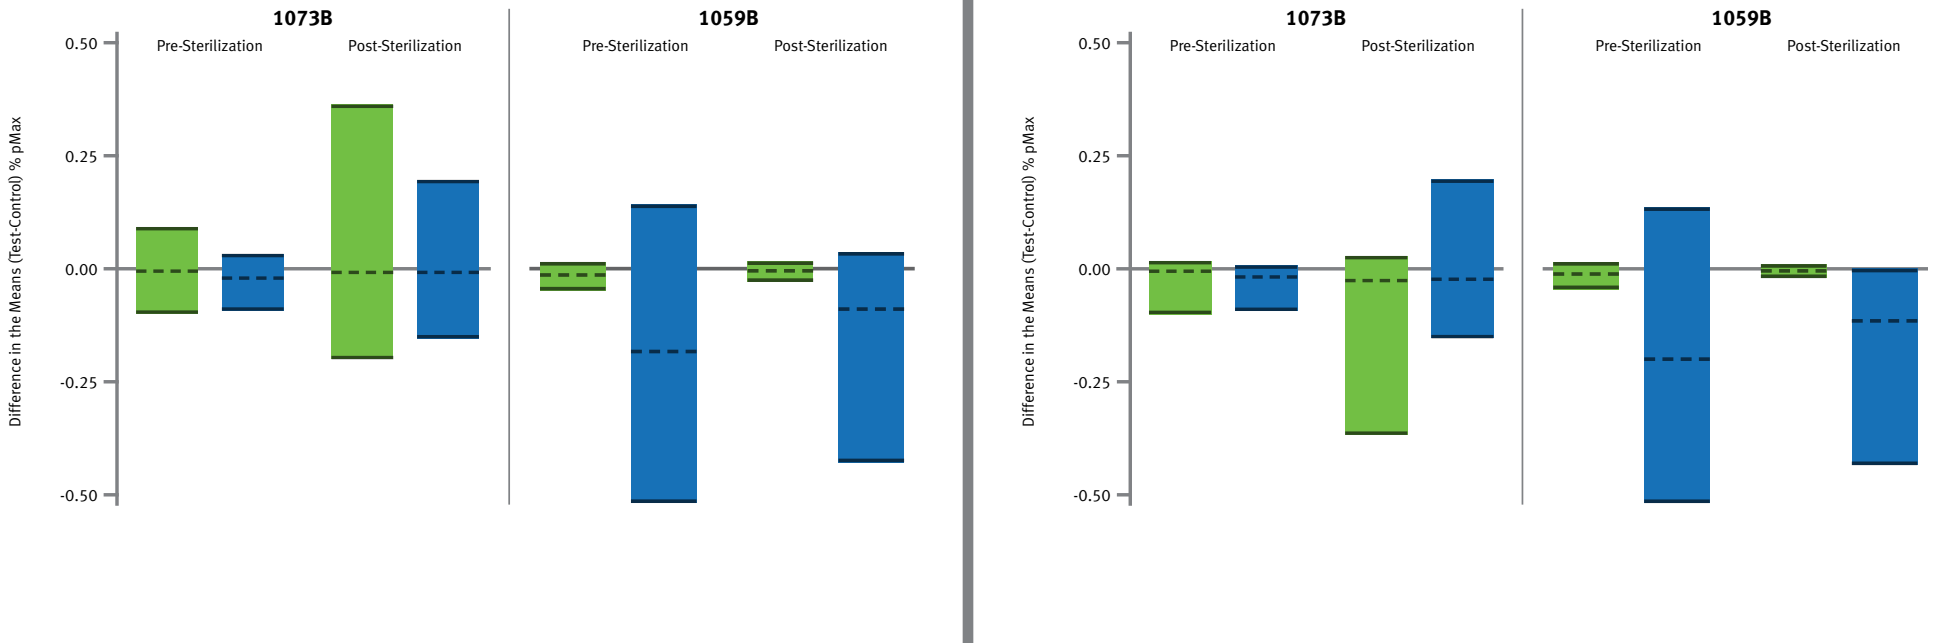

Pre- & Post-Sterilization Microbial Barrier Summary for Coated and Uncoated 1073B and 1059B – ASTM F2638

ORIGINAL

CORRECTED

Coated Uncoated

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

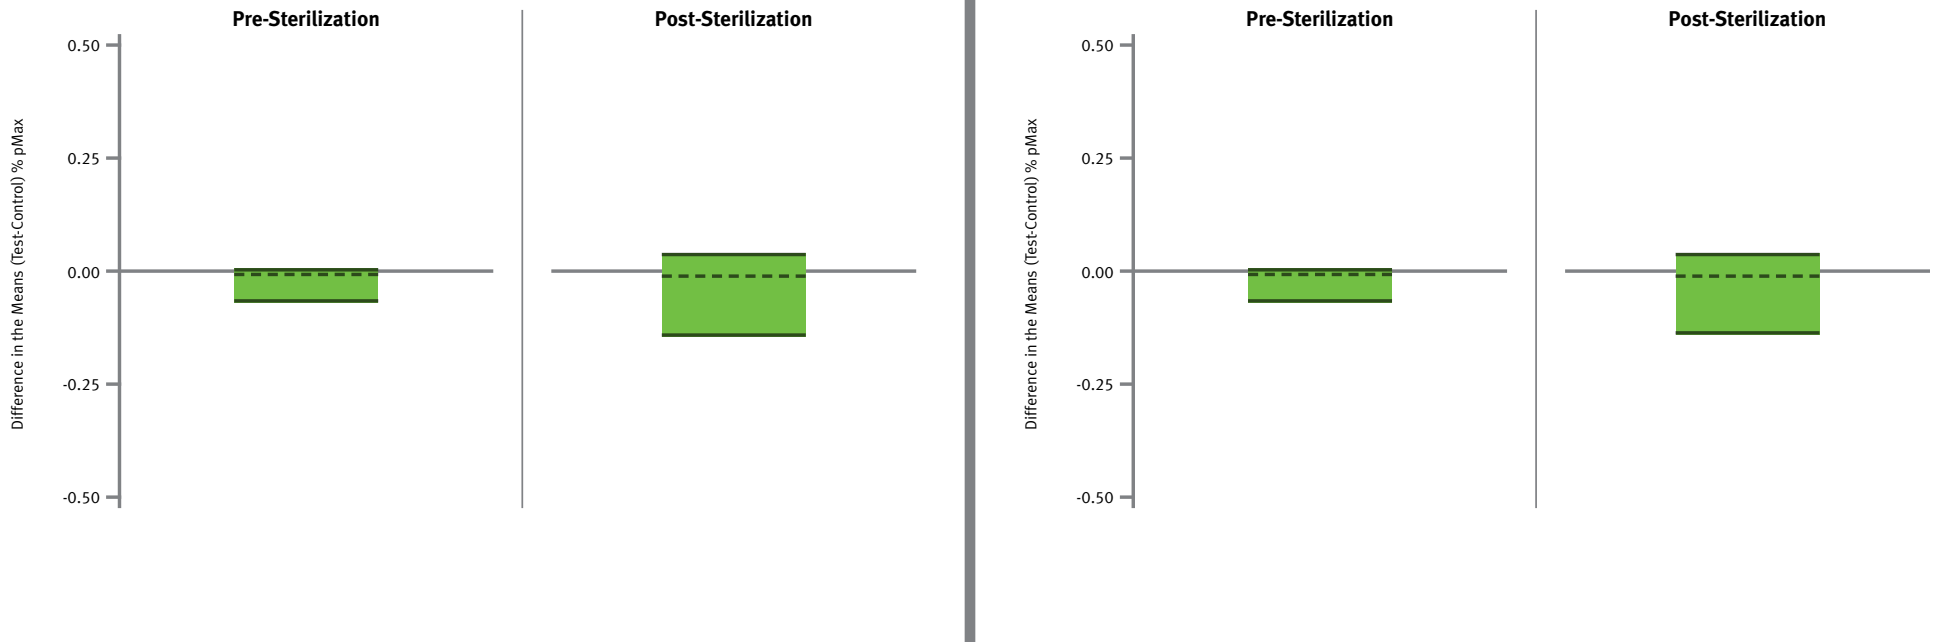

Pre- & Post-Sterilization Microbial Barrier Summary for Coated 1073B Pouches/Bags – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

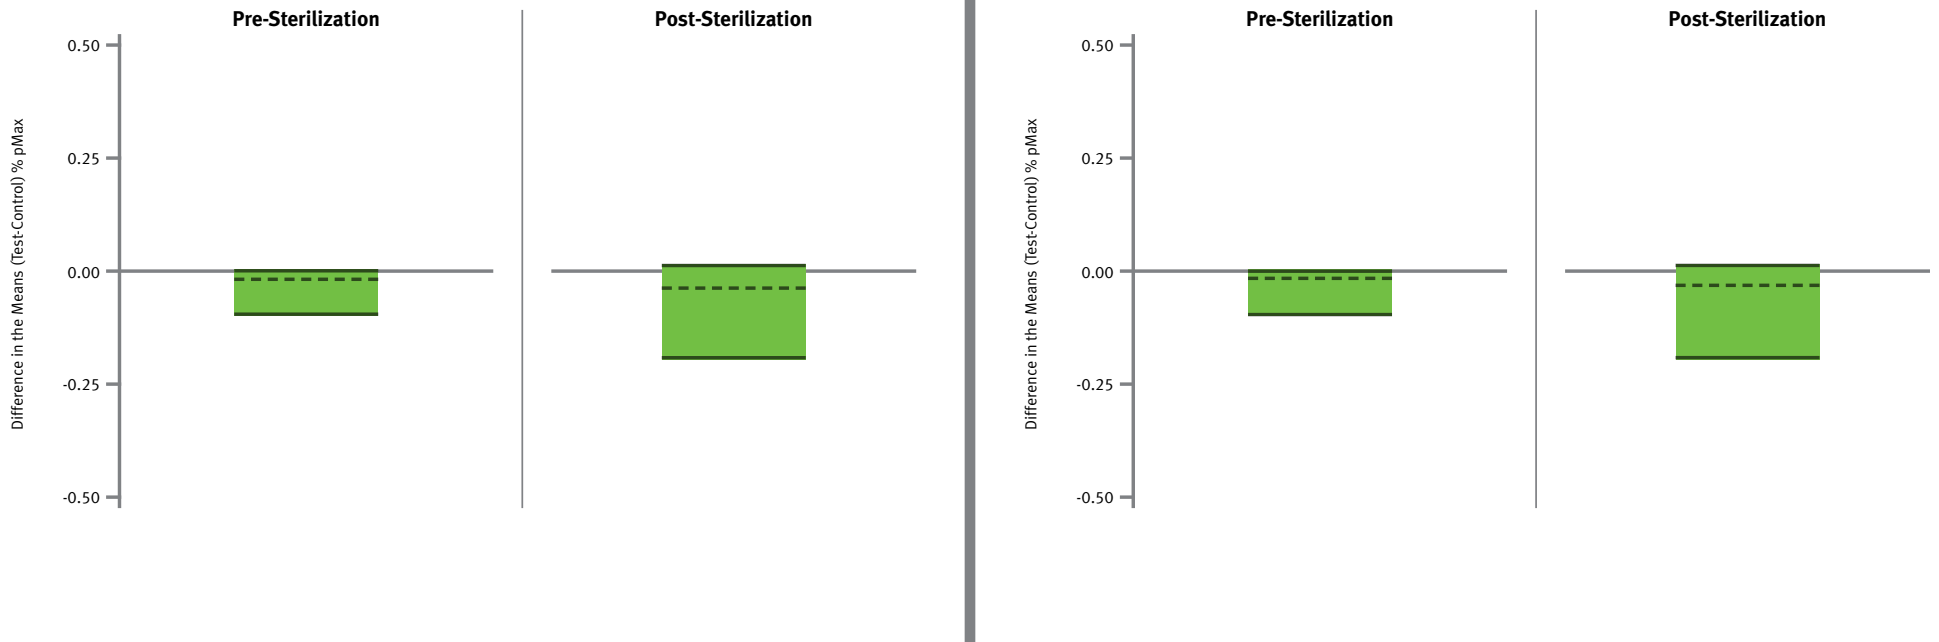

Pre- & Post-Sterilization Microbial Barrier Summary for Coated 1073B Form-Fill-Seal – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

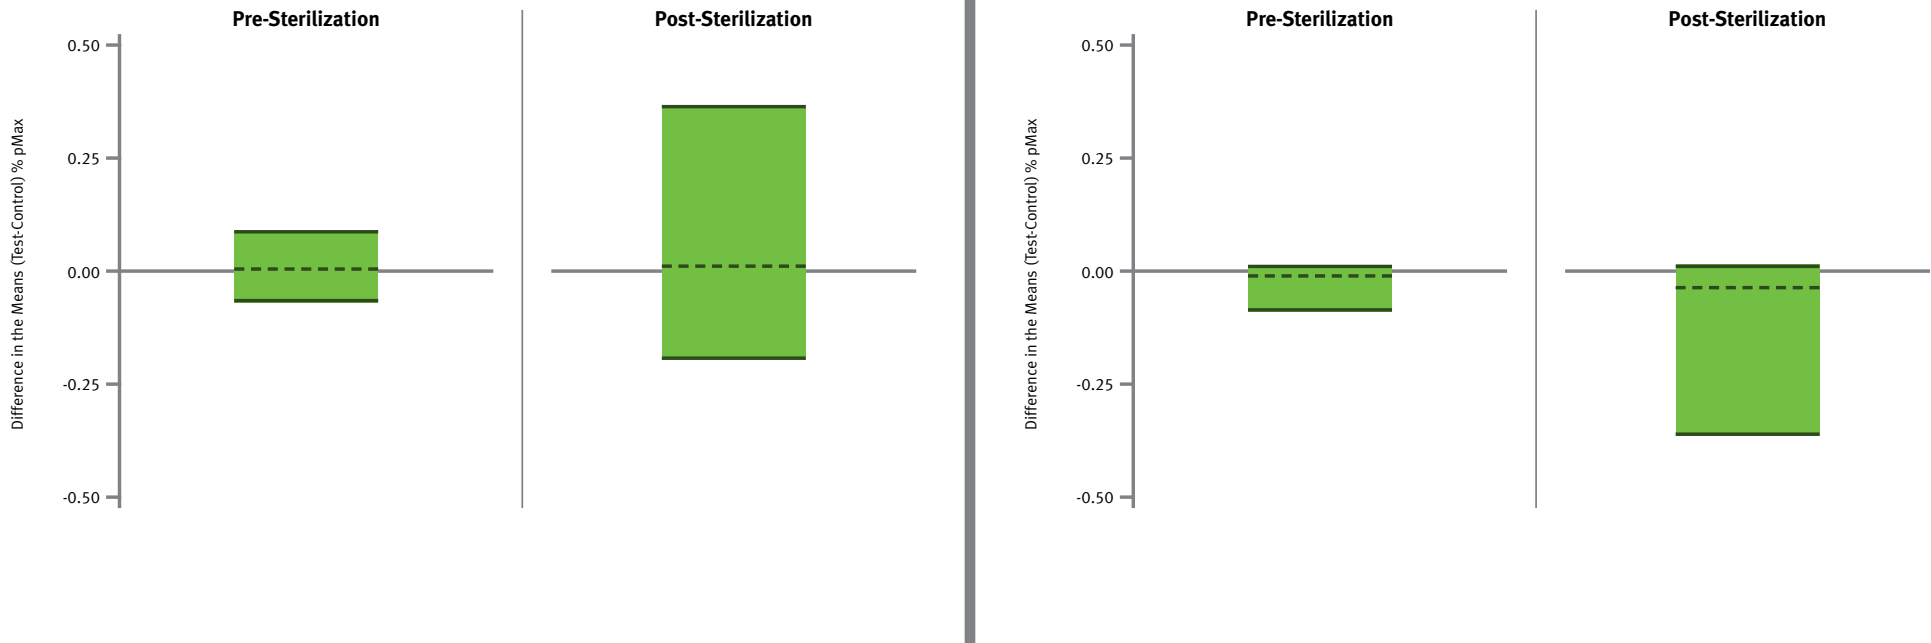

Pre- & Post-Sterilization Microbial Barrier Summary for Coated 1073B Lids/Rigid Trays – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

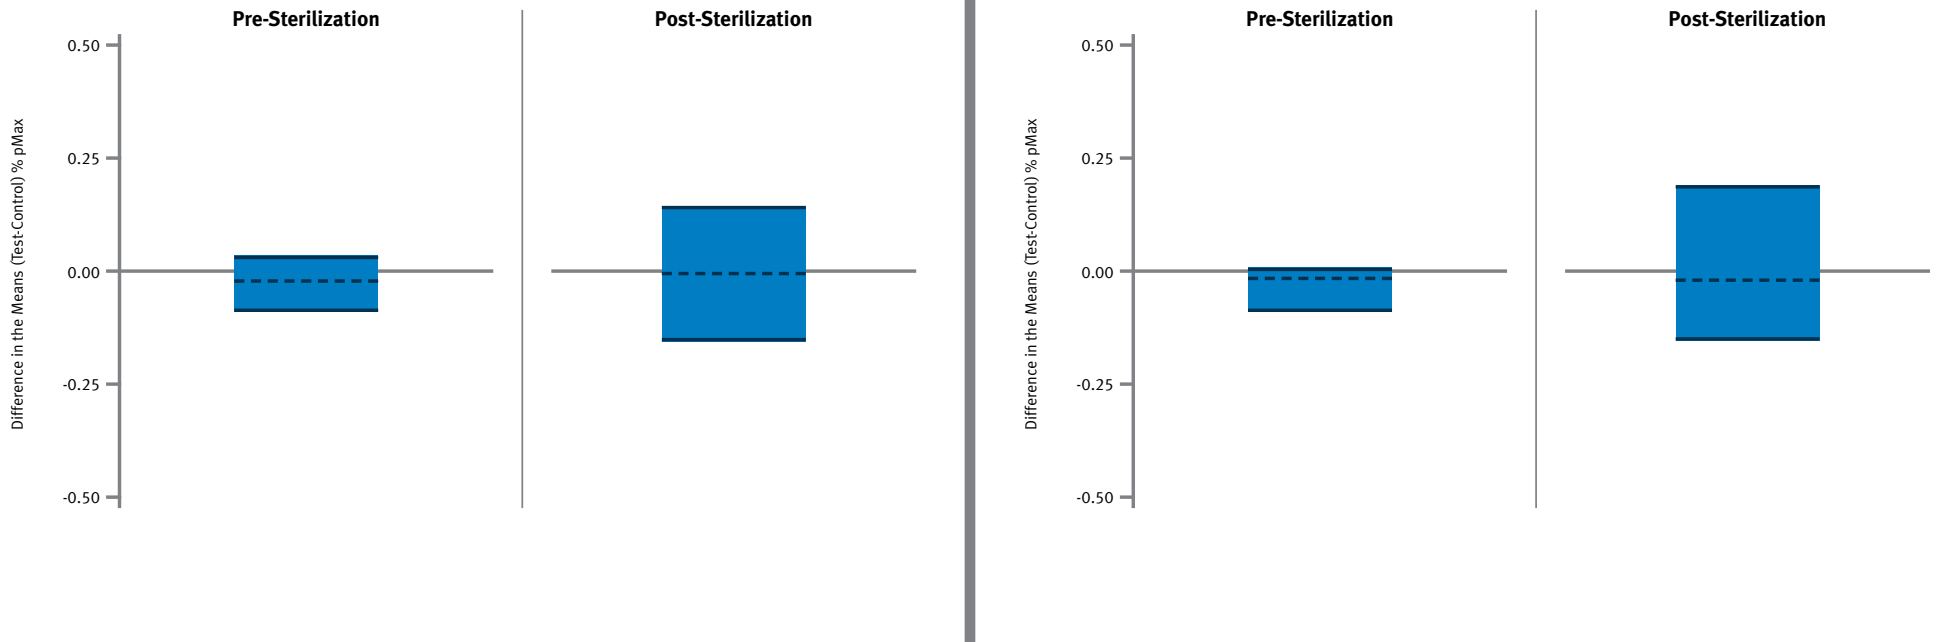

Pre- & Post-Sterilization Microbial Barrier Summary for Uncoated 1073B Pouches/Bags – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

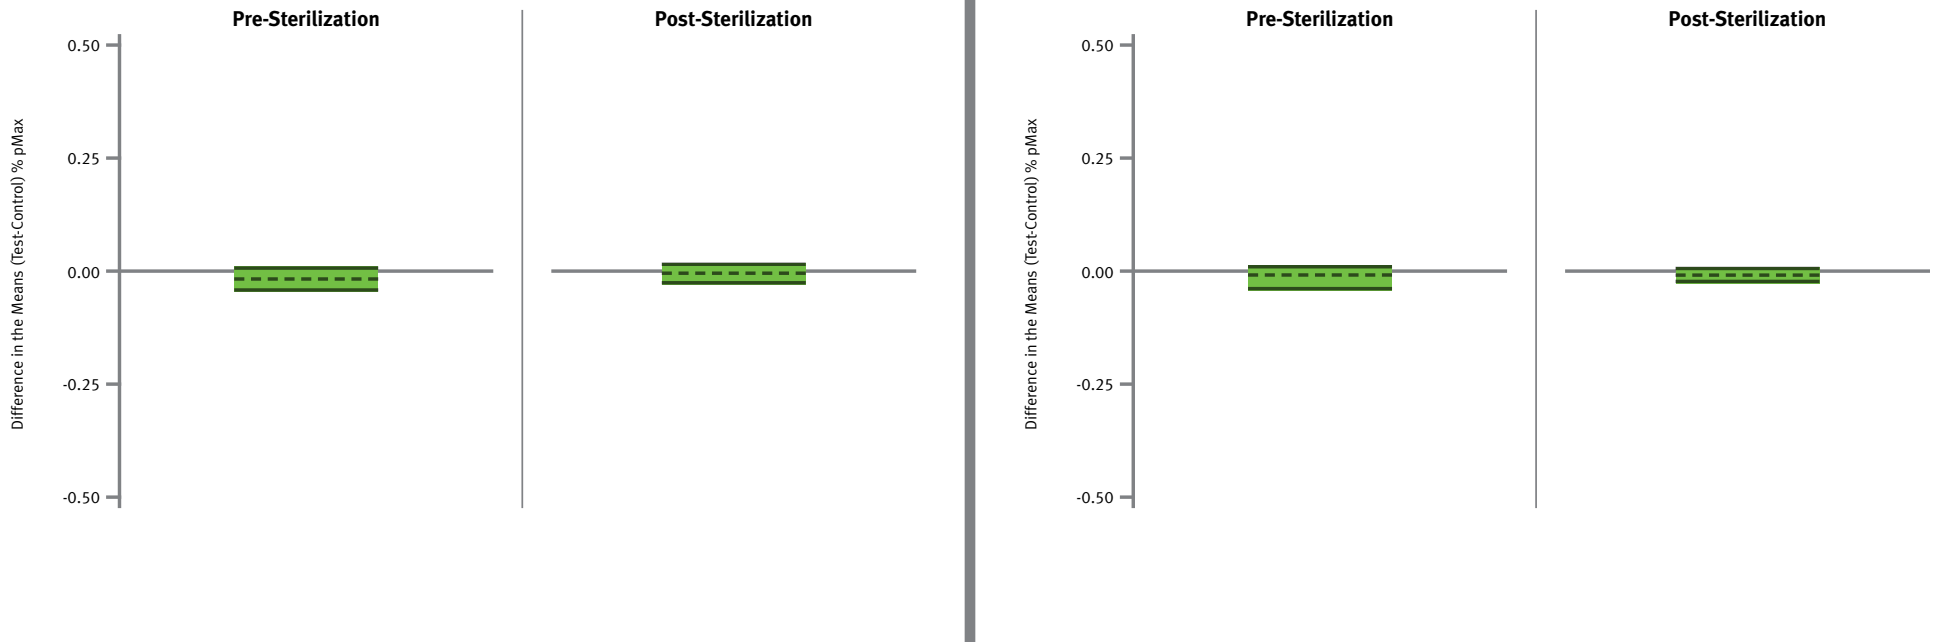

Pre- & Post-Sterilization Microbial Barrier Summary for Coated 1059B Form-Fill-Seal – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

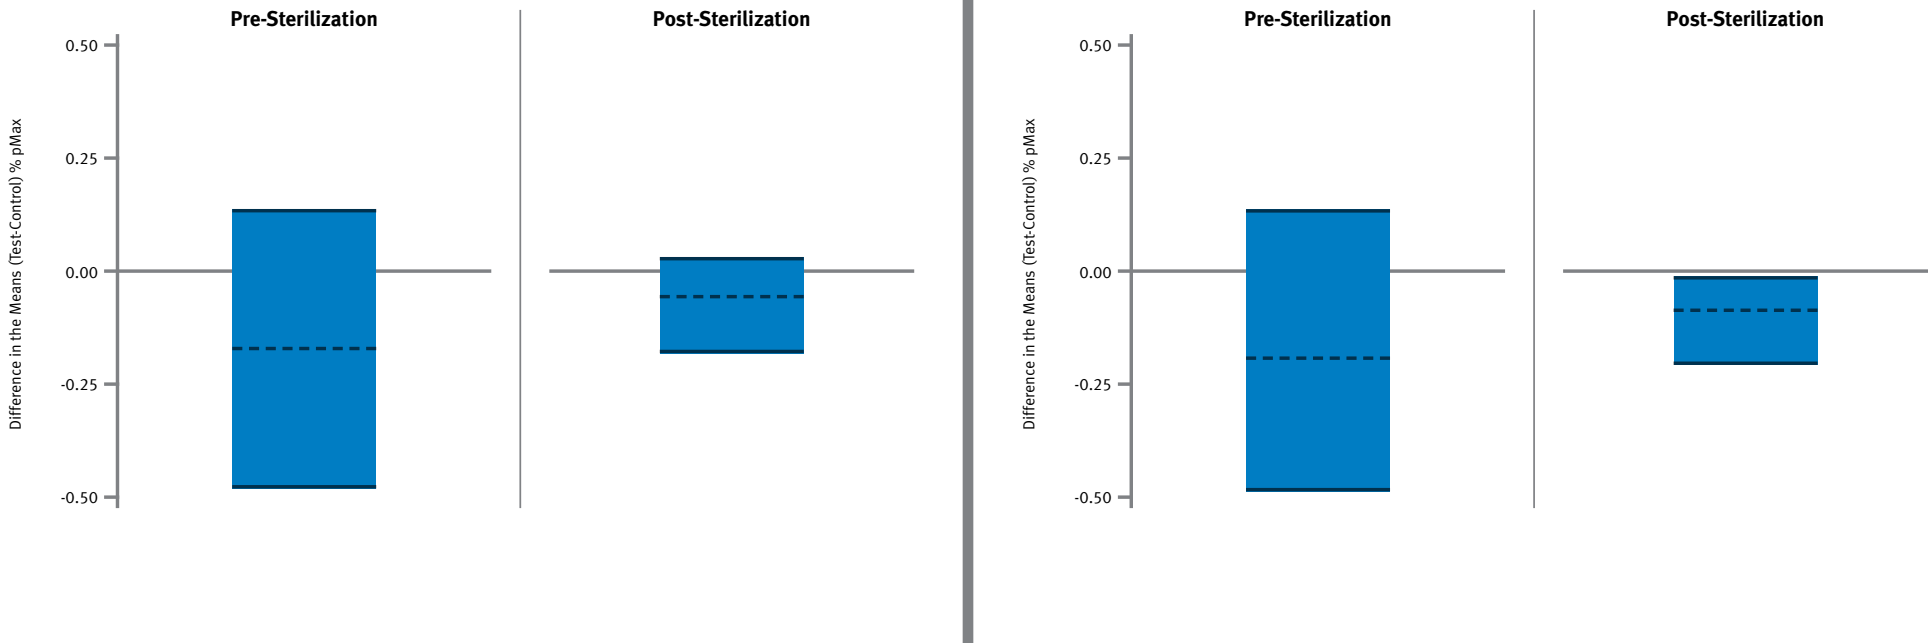

Pre- & Post-Sterilization Microbial Barrier Summary for Uncoated 1059B Pouches/Bags – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®

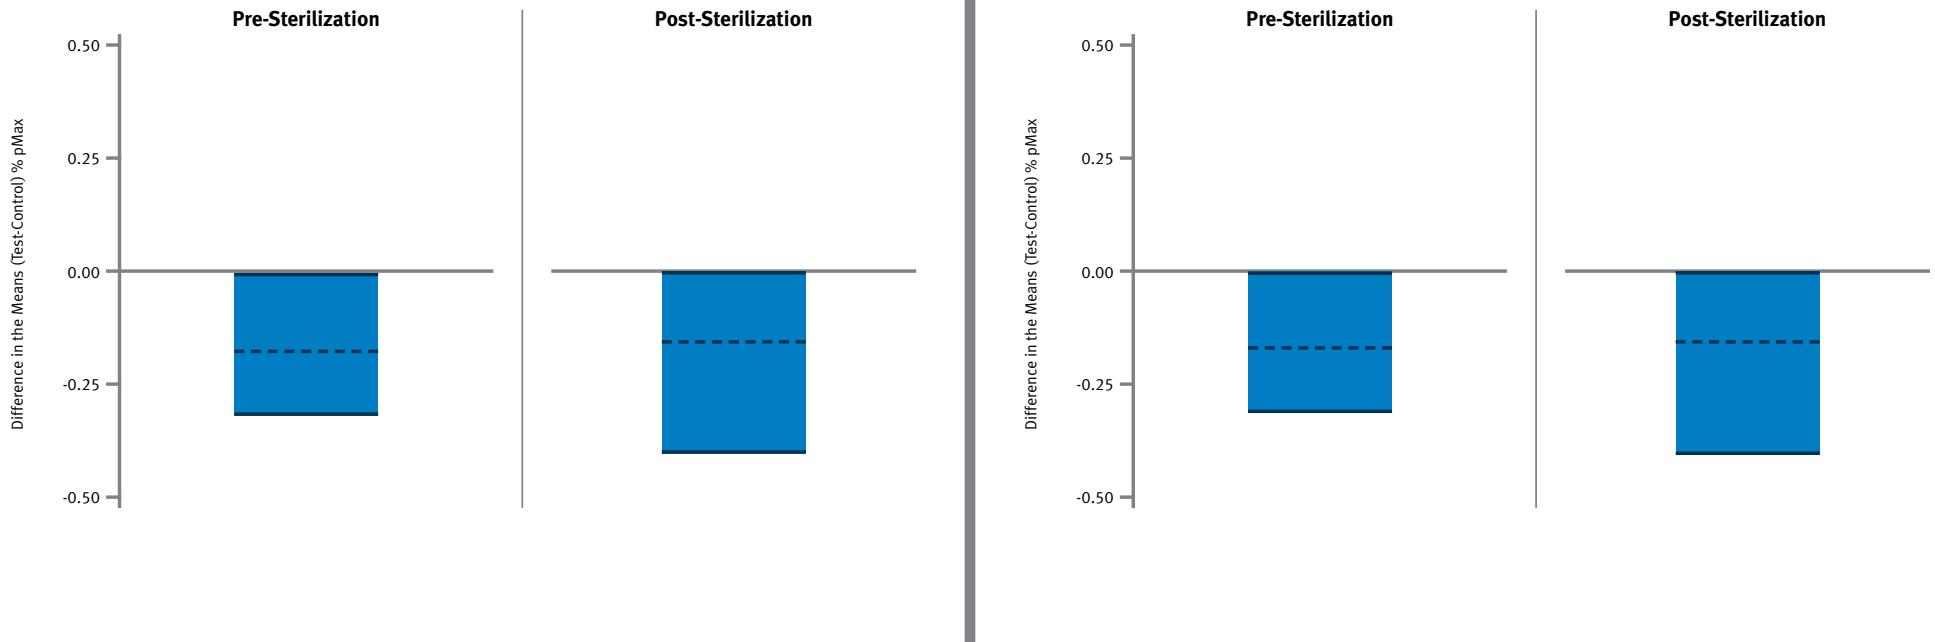

Pre- & Post-Sterilization Microbial Barrier Summary for Uncoated 1059B Form-Fill-Seal – ASTM F2638

ORIGINAL

CORRECTED

Dashed line (– – –)=Mean of the difference in the means
Test=Transition Protocol Material
Control=Current Tyvek®
